Access Capital Partners holds the final closing of its second European infrastructure co-investment fund at €400 million

European Private Assets specialist Access Capital Partners is pleased to announce the final closing of ACIF Infrastructure II, securing €400 million of commitments from existing and new investors, including insurance companies, public and private pension funds, foundations and family offices.

ACIF Infrastructure II invests in operational infrastructure assets in Europe alongside best-in-class fund managers, institutional investors and industrial groups, with a multi-sector approach. The Fund targets assets providing essential services, able to generate immediate, predictable and inflation-linked cashflows, with limited GDP exposure and conservative amounts of leverage.

“With this approach, we believe that the Fund is well placed to navigate the current macroeconomic environment and to deliver attractive returns to investors. This successful fundraise is a testament to the relevance and attractiveness of this strategy and to the solid performance of the predecessor fund”, commented Access’ Managing Partners, Agnès Nahum and Philippe Poggioli.

ACIF Infrastructure II, which is classified Article 8 under SFDR, promotes Environmental, Social and Governance (ESG) characteristics throughout the investment cycle and invests in assets contributing to the UN’s Sustainable Goals, with the aim of generating long-term value creation and sustainable returns for investors.

The Fund is already 45% deployed, with an initial portfolio of eight investments in the digitalisation, environmental services, circular economy, energy and transportation sectors, and benefits from an attractive pipeline of investment opportunities for 2023, as drivers for growth for private investments in infrastructure remain strong.

ACCESS CAPITAL PARTNERS

>> ABOUT ACCESS CAPITAL PARTNERS

Established in December 1998, Access Capital Partners is an independent Private Assets manager, majority owned by its management. With offices in six European countries and aggregate historical investor commitments of €13.5 billion, Access' integrated expertise offers exposure to Smaller Buy-outs, Infrastructure, and Private Debt through funds of funds, direct & co-investment funds and customized client solutions. The team is fully committed to integrating Environmental, Social and Governance best practices into its investment strategies, acknowledging that a responsible investment approach partially mitigates investment risk and enhances long term returns.
